EPPS'S COCOA

BREAKFAST-SUPPER.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided for our breakfast and supper a delicately flavoured beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette*.

NEWS FROM THE COUNTRY

BELL ROCK.

Rathbun Co.'s men are making a quick drive this year.

Edward Clare's camp is at Bell Rock now.

The school children had a very nice picnic on the 24th.

Fred Clark is running the new cheese factory in fine style, making about 700 lbs cheese per diem.

Visitors: Geo. Woods, Tamworth; A. Alexander, Napanee; Dr. Walsh, V. S. Harrowsmith; W. A. Wheeler, Whitman Creek; Mr. and Mrs. W. Bradshaw, Yarker, at H. J. Lawson's; Mr. and Mrs. York, Thurlow, at E. M. York's.

The Agricultural Society of the township of Sheffield, has organized, and the officers and directors have been elected. They have also purchased a piece of land from Mrs. O'Brien for a race course.

NAPANEE MILLS.

At present the C. O. C. F. lodge No. 124, of this place, are in a flourishing condition. Two candidates were initiated last month and seven more are in readiness for the trying ordeal on Tuesday evening, June 5th. Mr. Thos B. Wilson, recorder, and Mr. A. Clement, chief councillor, are putting the goat through a course of thorough training for his arduous duties. With Bert holding the halter, and Tom tucking on the bud, there should be no fear but the candidates will be safely launched ed within the mystic circle. Are you listening boys?

Little Allen Bravender had a severe shaking up on B. C. Lloyd's lawn on Saturday last. Fortunately Maurice Caton was near at hand and rescued him from his perilous condition. The boy is now growing nicely.

The lawn of Mr. J. F. Lasher now rejoices in a new, handsome picket fence. Maddens might follow suit without fear of being lunched.

WILTON.

Rev. R. Snider is filling the vacancy in the Methodist church until the meeting of conference, when the stationed minister will arrive.

Mrs. John Storms died on Saturday last, after a long and painful illness. Rev. Lambert, of Odessa, preached the funeral sermon at the house on Monday afternoon, after which the body was brought to the Wilton cemetery for interment.

John Peters, one of our oldest and most respected residents, passed away on Sunday, afternoon at 5 o'clock. Several weeks ago he had a slight stroke, when he lost the use of his left side. Since that time he gradually failed. The funeral services were conducted in the Methodist church on Tuesday forenoon by Mr. Sagar. He leaves a widow and two sons and two daughters to mourn his loss.

SCHOOL GIRL.

MORVEN.
Church circles in this district generally have been considerably exercised over the removal of their pastor to another field of labor. His many friends throughout this circuit on learning his intention and being desirous of placing themselves on record in the matter, circulated the following address, which was presented at an adjourned meeting of the quarterly

official board on May 19th, this being the strongest possible evidence of the popularity and regard in which the reverend gentleman and his wife are held, should certainly be the most convincing testimony necessary in the case, and which, we trust, may ultimately induce him to reconsider his decision and remain another year. It might also be added that had this article been more widely circulated many more signatures would have been added, as those residing on the outskirts of the circuit, members and others, were not approached in the matter. Following is the address which was signed by two hundred and forty two adherents and friends, of Morven Methodist circuit:—

To Rev. J. S. McMullen and Wife:
We, the undersigned of the Morven circuit, desire to convey to you some mark of our appreciation and esteem of you, our beloved and respected pastor. We shall ever prize your fidelity to duty, your self-denying christian labors, your efforts to comfort and bless humanity, your words and works of charity. Our hearts are filled with honest regret at the thought of your intended departure and we feel it would be for the best interests of the circuit if you would remain with us another year, as we will miss you both in prayer meeting and Sabbath School, and in fact, all the means of grace and counsel of the church. We have been made aware of your untiring zeal for the advancement of the Master's Kingdom, by your unceasing endeavors to bring souls to the foot of the cross, and we hereby sign our names as an expression to you of the love and appreciation we have toward you. We trust and believe that your endeavors will not return to you void, but like bread cast upon the waters, return after many days. We would also desire to place upon record our love and esteem for your most estimable wife, who, under heavy burdens, has shown her integrity as a christian worker in all the choir and in every good work under your pastorate. But should you still decide to leave us you will both carry the sincere prayers and best wishes for your future happiness and prosperity. Hoping that you may long be spared to work in the Master's vineyard, that when your work is finished you will hear the welcome plaudit, "Well done thou good and faithful servant."

"THE TRIUMPH OF LOVE IS HAPPY, FRUITFUL MARRIAGE."

Every Man Would Know the Grand Truths, the Plain Facts, the New Discoveries of Medical Science as Applied to Married Life, Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure the Wonderful Little Book Called "Complete Manhood, and How to Attain It."

"Here at last is information from a high medical source that must work wonders with this generation of men."

The book fully described a method by which to attain full vigor and manly power. A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self control, despondency, etc.

To exchange a jaded and worn out nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body. Age no barrier. Failure impossible. 2,000 references.

The book is purely medical and scientific, useless to curiosity seekers, invaluable to men who need it.

A despairing man, who had applied, to us, soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug every body and tell them my old self had died yesterday and my new self was born today. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the **ERIE MEDICAL COMPANY**, Buffalo, N. Y., and ask for the little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.

The Napanee Express.

NAPANEE, FRIDAY, JUNE 1, 1894.

VARIABLE AS THE WIND.

It was settled long ago that Mr. Meredith could take more positions on the same question than any man who has ever figured in our politics. He has been for the ballot and against the ballot; for the Irish electors and against the Irish electors; for the Separate School amendments and against the Separate School amendments. But in all Mr. Meredith's eccentric and tortuous public record there is revealed no more remarkable performance than that part of his speech at London which deals with the question of prohibition.

A POVERTY STRICKEN PLAT-FORM.

The policy of the Opposition press seems to be to hunt with the active Tory whine, of the Protestant Protective Association, to fill the air with inflammatory clamor, to appeal to the Protestant majority, and then to denounce the government for daring to make a defence. The game is too paltry. The object is too plain. The people of Ontario are no fools, and they thoroughly understand the double action policy of the Mail and Empire, and the poverty of the legitimate material of attack which has driven Mr. Meredith and his press to the humiliating extremity in which they find themselves.

LAND SPECULATORS AND FEES.

Referring to the Patrons of Industry. It is worthy of note that the

and they have no fault to find with the registrar." The Free Press commenting editorially on Mr. Stevenson's view of the case, says: "In view of the statements made by Mr. James Stevenson, the Conservative M. P. for Peterborough, in the interview published in another column, the efforts of the Meredithites to make capital out of the case of Mr. Grundy, the ex-Deputy Registrar, of Peterborough county, seems extremely ludicrous. Mr. Stevenson is no doubt as anxious as any other Conservative to assist the party, but he realizes that there is nothing to be made out of the Grundy case. The residents of Peterborough, Conservatives and Liberals, who know all the circumstances, have no sympathy with Mr. Grundy, and the fact that the Tories have to endeavor to make capital out of such a matter indicates the complete absence of serious ground of attacking the Mowat Government."

PATRONS OF INDUSTRY.

A prominent Patron of Industry, Mr. A. S. Tooley, in a letter to the Bowmanville Statesman, says some things that will be read with interest because of their general applicability at this juncture, by the voters of other ridings than the one Edward Blake, by his representation of it for years at Ottawa, made famous in the political history of the Dominion. Mr. Tooley writes:

"It will only be a short time before we will be called upon to elect a candidate to look after the interests of West Durham, and the question will be asked what stand are the Patrons going to take? Now, sir, there are but few Patrons in West Durham, but have voted a life time with the Reform party. By their intelligent vote and careful thought they have been the means of building up one of the best local governments the world ever saw. And the leader of the Government is a man that every Canadian ought to feel proud of.

Sir Oliver Mowat has been in public life about twenty-one years, and never during that time could a man cast the least slur against his character either in public or in private life.

By the push and the energy of the farmers and the manufacturers of Ontario, backed by the wise legislation of the Ontario Government the legislative grants for railways, schools and all public institutions and public works, Ontario holds the highest position to-day of any province in the Dominion of Canada.

Mr. Mowat and the Reform party have had to battle for Ontario's rights. They have had to fight all the sharp practices that could be brought to bear against them by the late Sir John A. Macdonald's Government. Every case which Mr. Mowat took up in the interest of Ontario, and which he carried to the highest Court in England, was fought by him to a successful issue, and by the verdicts given him in England, Mr. Mowat has proven himself to be the greatest constitutional lawyer we have ever had the honor of placing in the position he holds to-day.

He was fighting for the interests of Ontario when he fought for the Boundary Award, the Rivers and Streams Bill, and the Ontario License Law.

He was fighting for the interests of the farmers of Ontario when he put machinery into the Central Prison to manufacture binder twine: he was looking after the interests of Ontario when he appointed the Hon. John Dryden, a practical farmer, to look after the interests of Agriculture.

The Reform party were looking after the farmers' interests when they established the Agricultural College at Guelph, whereby the farmers' sons of this country can get the best education in farming it is possible for them to get. I think when we look squarely

that the agitation for the election and payment by salaries of provincial officers in the counties "was started by land speculators," who wish thus to make other people pay for their transactions. It says, "They require the service of these officials most frequently—indeed, no man who does not buy or sell land requires the aid of a registrar—and it seems right that the registrar should be paid by the person who requires his services. To abolish the fee system and put the man on salary, as some propose, would be to call upon us all to aid in the payment of an official the services of whom 900 out of every 1000 never require. This view and all other views will no doubt be fully heard by the commission now taking evidence from every source on the entire question of appointment and payment of public officials, and we have no doubt that in this matter, as in all other questions that he has been called upon to settle, Sir Oliver Mowat will take good care that the public interest shall be conserved." This will produce another shock to the Conservative party. It is dawning on some people that after all the Patrons are not going to allow the Tory party to make a cat's paw of them.—Kingston Whig.

WILL THE FARMERS FORGET?

No finer farming country can be found in the world to-day than that which surrounds London and makes it what it is, yet Mr. Meredith when opening his campaign there was dumb about agriculture. On his eloquent silence touching a subject of the greatest importance the following resolution found in the proceedings of the House the session the office of Minister of Agriculture was created, will throw a perfect flood of light.

"Moved by Mr. Meredith, seconded by Mr. Creighton, that, while this House concurs in the proposition to give greater attention by the executive government to the agricultural interests of the Province than has hitherto been done, it is of opinion that that end can be attained without incurring the expense of adding another member to the executive council, and the inevitable additional expense which will be consequent on such addition."

Mr. W. D. McPherson, President of the Toronto Young Conservatives, said in his inaugural address last fall:

"Then we have a Minister of Agriculture who has practically nothing to do, and accordingly does little, a department which could easily have been managed by one of the other ministers, and should never have been created."

Will the farmers of Ontario forget this attempt of the Opposition to frustrate the Mowat Administration in its effort to advance agriculture by placing a practical farmer in charge of a responsible department of the Government of the Province?

MR. GRUNDY HAS NO GRIEVANCE

Mr. James Stevenson, the Conservative M. P. for West Peterborough, was asked by a reporter of the Ottawa Free Press what his constituents thought of the case of Mr. Grundy, the dismissed Deputy registrar, of Peterborough, over whose case some Meredith papers has been making such a noise. "Nobody in Peterborough thinks Mr. Grundy has a grievance," responded Mr. Stevenson. "The people there are satisfied that the Registry Office is well conducted, and they would have justified the registrar had he dismissed Mr. Grundy sooner than he did. Neither the Government nor the public know anybody in connection with the registry office except the Registrar. Mr. Grundy was not dismissed because of the evidence he gave in Toronto, but because of a letter he sent to the papers after his return to Peterborough. The people of Peterborough take

legislation as carried out by the Mowat Government, we must come to the conclusion that we have received nothing but intelligent and wise legislation at their hands."

It is only a few months ago that Mr. Mowat was asked by the temperance people of this province to pass a prohibitory liquor law, and they found him honest and equal to the occasion. He placed the electors of our various municipalities in a position to take a vote to ascertain if the people were ready for legislation of that kind, and he found that they were ready by the large majority it received.

One of the largest conventions ever held in Toronto by the temperance people some few weeks after this was desirous to ascertain what further legislation Mr. Mowat was willing to give. He promised them not only by word of mouth but in writing, that the moment he found out that he had, or the Province of Ontario had a legal right to pass a peremptory liquor law he would introduce a measure in the House for that purpose. In this, as in everything else, we have found him honest and straightforward.

Now, Mr. Editor, when I was asked to join the Patrons of Industry I believed that it was for the purpose of helping to fight the combines that were built up in this country by legislation enacted by the Conservative party. These combines never could have existed had it not been for the very unwise legislation introduced by that party in 1878.

I did not think for one moment that I would ever be called upon to do anything which would have a tendency to injure Sir Oliver Mowat or his government. Thousands have supported Mr. Mowat for years and could not see anything but pure government until the alleged sins were pointed out by a few men—the grand officers of the Patrons of Industry.

Some think that Mr. Mowat has done wrong in appointing county officers, and that these officers should be elected by the people. I feel sure that if this is the wish of the people Mr. Mowat will be willing to adopt this system.

PRINCIPAL GRANT ON THE ISSUE.

The one point that our people everywhere must settle is this: Can we get administrators who are determined that the commandment "Thou shalt not steal" shall be observed? Till that is settled it is useless to talk about anything else. Provincial rights, school questions, tariff reform, British connection, canals, cables, railways—what is the use of discussing these if we sink into a nation of thieves? That is what we must become if we tolerate stealing in high places, for what is done at the top is sure to permeate to the bottom. Look at the revelations that we have had since 1891—corruption in so many quarters that we wondered if there was a clean spot anywhere. A recent instance is enough to show how deep and widespread the roots of the malady are, and to show how hard it is for a Government to act, even with good intentions, unless supported by a healthy public opinion. Two worthy gentlemen were convicted and sent to goal. Prison disagreed with them, and they were set free. One is about offering himself as a candidate for Parliament, the other was taken from prison as a conquering hero. In Montreal fine gentlemen received him at the railway station with cheers, took him to the Windsor hotel, and dined and wine him. He in reply, said not a word about ill health, but declared that the people would not allow the Government to keep him in prison any longer. When convicts get such treatment ordinary men will not be much disinclined to be classed among convicts. As we think of the saturnalia that must have existed

...public morals could become possible, we are forced to ask what might have happened to the richest province in the Dominion if any easy going politician had had charge of its strong box? What plunder there was for a song. We have timber limits worth tons of millions; we could stand a debt of twenty or thirty millions as easily as Quebec. A politician of easy virtue would have lavished these millions on heelers and hangers on, who, in return, would be enthusiastically voting him a god. Does not this throw some light on what we have escaped, and what we owe to the man who has been in charge of our "strong box" for twenty-two years? Assuredly, the revelations have had that effect on me. Our money is still our own, and our own honor is safe. Thank God for it, also let us keep our powder dry—that is, keep a good servant at his post. A man who will not read this lesson will not read anything. In one word, Ontario cannot afford to dismiss Sir Oliver Mowat.

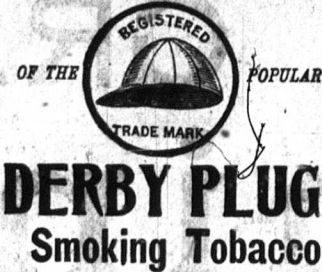

"There is, however, another reason for voting for him that appeals to men who believe that British connection is indispensable to the growth of Canadian nationality. Mr. Mowat was always loyal, but in the last two or three years he has taken a decided public stand that has cost him some followers, and that in my opinion should win for him twice as many. His acceptance of honor from the Queen—and it is clear to me that as a rule politicians should neither seek or refuse such honors—his Niagara speech, his dismissal of an official who defied him on a point of duty involved in his office to the Crown, these things should not be forgotten. When D'Alton McCarthy said, "though Sir Oliver Mowat has lost Elgin Meyers he has gained Mr. McCarthy," a good many added individually, "and me, too." In one word, those men who are in favor of British connection cannot afford to dismiss Sir Oliver Mowat.

Again, there can be no doubt that Sir Oliver Mowat stands now for the fair treatment of minorities, and that is the only way to make possible a united Canadian people. Some Protestants seem to be scared now, and they will be ashamed of themselves by-and-by. We Protestants used to be fearless. We used to say that truth is great and will prevail; that truth needed only a fair field and no favor; but now some of us seem to be afraid of the rustling of a leaf. It is fancied that one Roman Catholic in a Cabinet can bind half a dozen Protestants, and that a feeble minority can deprive us of our liberties if they get their share of a number of paltry offices. The forms that this scare takes are so extreme that it is impossible for the thing to last any time. For instance, there is not a more typical Protestant in Canada than Hon. Mr. Gibson. He is straight from first to last, incorruptible, every inch a man, capable, diligent, an honor to his city. Yet some good men are opposing him because they think him a slave to Rome. They might just as well think him the King of the Cannibal Islands. I know the force of prejudice and passion, but it is difficult to believe that many of the intelligent people of Ontario will be carried off their feet by this scare. There are bigots on both sides, but the great mass of our people do not intend to sow dragon's teeth, and the great mass of Protestants have no intention of fighting God's cause with the devil's weapons.

I cannot help saying here that I wonder a little that Mr. Meredith does not speak out what he must feel with regard to the P.P.A. Coquetting with such an association, or even silently accepting its aid must be fatal to him. It may be said that he is not coquetting. No, but the receiver is as bad as the thief. Such allies must have their price, and they are sure to act as a boomerang. I would

Holloway's Ointment and Pills

For the cure of burns, scalds, wounds and ulcers, this justly celebrated Ointment stands unrivalled. Its balsamic virtues, immediately on application, lull the pain and smarting, protect the exposed nerves from the air, give to the vessels the vigor necessary to heal the sore, and confer on the blood a purity which permits it only to lay down healthy flesh in place of that destroyed. Holloway's Pills, simultaneously taken, must assist the Ointment's purifying and soothing power. Together these medicines act like a charm; no invalid, after a fair trial, has found them fail to relieve his pain, or completely cure his disease. The combined action of the Ointment and Pills, in all disorders, is too irresistible to be withstood.

An American editor announces with a thrill of satisfaction that a man at Peoria, Illinois, has invented a self-adjusting stove-pipe. Better yet, he refuses to patent it because he desires that it may come into universal use as a moral agency for the prevention of profanity.

—I can highly praise Burdock Blood Bitters because it had a fair trial in my case with wonderful success. My symptoms were droopy, backache and sleeplessness, and all these disappeared after using two bottles of Burdock Blood Bitters. I cannot praise its healing powers too highly.

LETTER TO THE EDITOR.

TO THE EDITOR.—Sir, I am a farmer and have no particular political leanings but I want to tell you just what kind of a man we should choose for our representative at Toronto. He should be a man whose interests are identical with the farmers. He should be in touch with them at all times, easily got at when we want appointments made or laws changed, and he should be in favor with the government. We have had an opposition representative too long, and as Napanee is the centre of the agricultural, educational, financial, social, religious and commercial interests of the country our member should be a resident of the town. These are my reasons for voting for Symington, and I hope my brother farmers will do the same.

Yours, &c.,
FARMER'S SON.

To the editor of the EXPRESS:

DEAR SIR,—In your last issue an item appeared "Petitioned to Remain," which, I think, needs a little explanation. The petition was styled an address, or letter of condolence when it presented to the people for their signature, and I presume was signed by them as such. On being asked by some if it was a petition, those who circulated the same said it was not. The facts are, there is a divergence of opinion on the subject, some wanting the pastor to remain, while others do not. Further, the writer feels that some of the credit given to the present pastor should be accorded to Mr. Mallet. It is only fair, Mr. Editor, that this view should be made known.—K.

It is no boast to state that Magic Pile Lotion will cure Piles and that it is the most satisfactory application you can apply to all surface wounds, ulcers, burns, etc.

\$750,000 A YEAR TO BE ASKED FROM PARLIAMENT.

Bills Introduced to Amend the Dominion Elections Act and the Act Respecting Interest.—Mr. Foster Gives Notice of a Resolution to Subsidize a French Steamship Line For Ten Years.

OTTAWA, Ont., May 30.—After routine yesterday Sir John Thompson introduced a bill to amend the Dominion Elections Act by shortening the time hitherto allowed in certain constituencies for nominations and polling days.

Dr. Landerkin enquired whether the First Minister had made provision for having the declarations take place as early as in the local election.

Sir John Thompson replied that there was no provision to that effect in the bill, and his attention had not been drawn to it.

Sir John Thompson also introduced a bill to amend the act respecting interest, the object being to make judgments in British Columbia subject to interest at 6 per cent. The bill was read a first time.

Sir Richard Cartwright brought up the matter of the adjournment of the Public Accounts Committee in the morning without the transaction of any business owing to a misunderstanding as to the hour of meeting. After some discussion it was explained that the notices had been sent out calling the meeting for 10 a.m., whereas the understanding among members was that the meeting should take place at 10.30 a.m. as usual. It was then agreed that the committee should meet on Thursday and again on Friday.

Hon. Mr. Foster last night gave notice that he will move that the House go into committee on the whole on the following resolution: That it is expedient to provide that the governor in council may enter into a contract for a term not exceeding 10 years with any individual or company for the performance of a fast weekly steamship service between Canada and the United Kingdom, making connection with a French port on such terms and conditions as to the carriage of mails and otherwise as the governor in council deems expedient, for a subsidy not exceeding the sum of \$750,000 a year.

Tariff revision was substantially closed yesterday. A great many more changes in small details were made this afternoon and evening. Yarns have been put on a specific duty basis. The free list has been extended. Materials to be used in the manufacture of mackintoshes and high-class waterproof clothing are to be admitted at a low duty. The tariff as revised will be printed at once. The evening session was passed in supply, items for the administration of justice being under discussion.

The name of Mr. Cockburn is mentioned as one of the Canadian representatives at the Intercolonial Conference at Ottawa next month. Mr. Foster and Mr. Bowell will also be delegates. It may be that after their conference Mr. Bowell's and Mr. Cockburn's names will come up for knight-hood.

It is understood that there will be no volunteer camps in Ontario in June and it may be, none at all this year. The Militia Department, like the others, must economize. There cannot be camps and new rifles provided. It would look as if the Government prefers to buy new rifles this year than hold the camps.

Fell on a Pair of Sheep shears.

NEWBURY, May 30.—Edgar Hurdle, a Moss farmer, while shearing sheep was thrown down and fell upon the sharp points of the shears, one of the points penetrating about one and a half inches below the heart and the other an inch lower. The wounds are about an inch deep, and are quite ugly and dangerous. The sufferer may possibly recover.

Sheep Shears in His Throat.

OTTER LAKE, Mich., May 30.—Charles Carpenter was shearing a sheep. It kicked, driving one point of the shears in the front of his neck and the other just back of his left ear, severing an artery. He will not live.

Took Chloroform.

INGERSOLL, Ont., May 30.—Aggie Wood of West Oxford committed suicide last night by taking chloroform. She left a note saying that she would not be disappointed.

Germany and the Anglo-Belgian Treaty.

BERLIN, May 30.—The Government has formally protested against the Anglo-Belgian treaty on the grounds that an international convention having fixed the Congo frontiers, only an international agreement is entitled to modify them.

Denied in Brussels.

BRUSSELS, May 30.—The report that Germany has protested against the Anglo-Belgian treaty is positively denied here.

France Urged to Checkmate England.

PARIS, May 30.—The Paris press are generally agreed in urging France to checkmate the Anglo-Belgian agreement in regard to the Congo frontier. The Siecle prints an interview with M. Deloncle, in which that gentleman says that the matter is not a question of diplomatic reserve. The time will come, he says, when Great Britain will understand that France is the country that can most easily make its will felt in Africa.

Composition of the New French Ministry.

PARIS, May 30.—The new cabinet as definitely formed yesterday is as follows: M. Dupuy, Premier Minister of Interior and also Minister of Worship; M. Poincare, Minister of Finance; M. Guerin, Minister of Justice; M. Felix Faure, Minister of Marine; M. Delcasse, Minister of Colonies; M. Gorgees Leygues, Minister of Public Instruction; M. Viger, Minister of Agriculture; M. Lourties, Minister of Public Works; General Mercier, Minister of War. The foreign portfolio has been offered to M. Cambon, French Ambassador at Constantinople. If M. Cambon refuses the position will be given to M. Hamoteau, an ex-deputy, now chief of the Commercial Department of the Foreign Office.

The Upper House a Bulwark Against Parliamentary Intrigue.

LONDON, May 30.—Lord Salisbury, in a speech in London last evening, referred to the agitation against the House of Lords. He said he believed that it was perfectly hopeless to try to sweep away the House of Lords, and equally hopeless to try to reform the House of Lords according to Lord Rosebery's plan. He expected to hear throughout the remainder of his life that the united strength of the Liberal party was going to abolish the Lords, and he ventured to prophesy that the Liberal party would live upon this promise for many years. John Morley, he said, seemed to think that the Conservatives regarded the Lords as a bulwark to resist the current of popular passion. He (the speaker) would not claim any such power for the Lords.

He believed that nothing could oppose a bulwark to popular passion, except an arrangement for deliberate and careful reference of any matter in dispute to the votes of the people like the arrangements existing in the U.S. and Switzerland. But that was not the greatest use of any second or upper parliamentary chamber. What such a Chamber had to meet was not popular passion, but parliamentary intrigue. It was the function of the Second Chamber to ensure that the concessions made by the Government to secure the votes of its supporting groups did not result in legislation dangerous to the public weal. If the country desired to hear less of the House of Lords and to make it less dominant it must take care that the actions of the House of Commons harmonized with the wishes of the people, especially with the wishes of the people of England. Any House of Commons heartily backed by the people of England would never have much reason to complain of the House of Lords.

The Imperial Federation League Meets.

OTTAWA, Ont., May 30.—The annual meeting of the Imperial Federation League in Canada was held yesterday morning in the Parliament Buildings. Lieut. Col. George T. Denison, Toronto, president, was the chairman. Mr. McGoun of Montreal moved "That any scheme of Imperial federation should embrace a commercial union as necessary to its strength and permanency, that such union should be based as nearly as practicable upon free trade throughout the empire, and upon the imposition of an extra duty on foreign imports, with few exceptions, to provide funds for Imperial defence."

A FIGHT FOR FREE LUMBER.

Populist Senators Desire Logs, Lumber and Shingles Free.

WASHINGTON, May 30.—The Tariff bill was taken up, the question being on the amendments to the lumber schedule offered yesterday by Senator Hale to put a duty of \$1 per thousand feet on new-sawed boards and on sawed lumber \$2 per thousand feet, and by Mr. Pepper to put undressed lumber on the free list and impose a duty of 25 cents per thousand feet export, side-planed or finished; 50 cents when tongued and grooved and 75 cents when planed on both sides and tongued and grooved.

The matter was discussed at great length. Finally the question came to a vote. The amendments were rejected, 17 to 27, and then Mr. Hale offered another amendment, reducing the existing duty on sawed lumber from \$2 to \$1 a thousand feet. This amendment was also rejected, 14 to 30.

Mr. Allen (Pop. Neb.) offered an amendment putting on the free list logs, lumber, shingles and such building materials as are commonly used in the construction of dwelling houses, barns and fences. He warned Democratic Senators that their bill would not be swallowed by him and other Senators of his party without some modifications. Without action on Mr. Allen's amendment the bill was laid aside with the arrangement, by unanimous consent, that the lumber schedule will be disposed of on Thursday without any further discussion.

WHICH BRAND OF PLEURO IS IT

THAT THE STEER UNDER SUSPICION IS AFFLICTED WITH?

Difficult to Detect the Difference Between the Contagious and Non-Contagious Pleuro—The Animal Thought to Have "Transit Pneumonia"—Motion to Make the Embargo Permanent.

LONDON, May 30.—In the House of Commons yesterday Dr. Farquharson, member for Aberdeenshire, asked Mr. Herbert Gardiner, President of the Board of Agriculture, if the Government would adopt the suggestion of Prof. Adams of Montreal, to cause careful bacteriological observations to be made in suspicious cases of lung trouble which might be detected in cattle imported from Canada, thereby elucidating the difficult points in the diagnosis which are admitted to exist between the earlier stages of contagious and non-contagious pleuro-pneumonia.

Mr. Gardiner said that so far as the Government had been able to gather bacterial observations of these cases had not hitherto yielded any valuable results, as no specific germ had thus far been identified with pleuro-pneumonia.

In committee of supply, Mr. Long, member for West Derby Division of Liverpool, speaking in behalf of Mr. Chaplin, who was President of the Board of Agriculture in Lord Salisbury's Cabinet, called attention to the regulations restricting the importation of Canadian cattle. Neither he for his friends, he said, wished to exclude from Great Britain cattle from countries where disease was not suspected; but immunity to British herds was to be secured only by preventing the importation of cattle from countries where there was the slightest suspicion of disease or where disease possibly existed without the knowledge of either the exporters, the Government or the British authorities.

Contagious pleuro-pneumonia, he maintained, was so difficult of detection and frequently so long latent that it was virtually impossible for the Government to remove the present restrictions while the present conditions existed. He, therefore, asked the Government for assurance that the present restrictions should not be removed for a long time to come.

Mr. Gardiner, President of the Board of Agriculture, assured Mr. Long and his friends that the Government dealt with the question purely with the view of protecting the health of British herds. The Government, he said, certainly had no thought of allowing its policy in this matter to be regulated by fear that facilities for importation might lessen the prices of home stock. [Heard.] All the Government could do was to exercise careful judgment on the best information available. The restrictions would not be removed until the Government was satisfied that the risk was removed. The Government must reserve freedom of action in the matter and could not undertake to state what it would do at any specified period.

The discussion was continued by Colonel

A RESPITE FOR MACWHERRELL

EXECUTION POSTPONED UNTIL AFTER WALKER'S TRIAL.

The Reprieve Granted By Mr. Justice Ferguson, Who Tried the Case, the Minister of Justice Not Having Time to Consider the New Evidence—The Scaffold Had Been Nearly Completed.

OTTAWA, May 30.—The carpenters who are at work on the scaffold at Brampton may cease their labors, as their handiwork will not be required for use on Friday. Walter MacWherrell, the murderer of Jas. and Eliza Williams in the Middle-road, Toronto Township, on Dec. 14, 1893, has been reprieved, and for the present at least his neck is safe.

Owing to the press of Parliamentary and other work Sir John Thompson has been unable to go into the case thoroughly and has not therefore made any report to His Excellency on the petitions presented. This has been reported to the judge, who has the power under such circumstances to grant a reprieve, and such reprieve has been granted until after the fall assizes, at which Walker is to be tried.

MacWherrell's counsel, Mr. Robinette, was notified of the respite last evening and was naturally jubilant. MacWherrell will be notified of his extended lease of life this morning.

It is probable that an application for a change of venue will be made in the case of Walker.

The Scaffold That Won't Be Used.

BRAMPTON, May 29.—The scaffold for MacWherrell is about completed. The finishing touches will be put to it tomorrow. "J. R. Radcliffe, Toronto," as the hangman registers himself at the Queen's, says his improved and humane method of ridding the earth of murderers would not work in MacWherrell's case. The man is too light—the drop weight would "lift him over the church," explained the hangman, indicating St. Paul's, a hundred yards from the jail. The old-fashioned method will be used on MacWherrell, and he will get a drop of eight feet. Radcliffe is introducing a new feature, however, to the old-style method, and that is that when the condemned disappears through the trap he will be lost sight of to the spectators just as effectually as if he were dropped down a well. The affair that is erected in the jail yard looks for all the world like the ordinary judge's stand at a country race track. It is a square box affair, about 10 feet each way. It has four corner posts of 6x6 inch stuff, 12 feet long, and the sides are tight boarded with 12-foot boards. Eight feet from the foundation is the platform, with trap. On each side is built in a square timber post, 16 feet from the ground, and connected at the top with a stout beam—this is the scaffold. The scaffold is built 10 feet forward directly in a line with one of the rear jail doors. A gangway from the door will run to the scaffold, having an elevation of about 18 inches at the instrument of death. Witnesses of the execution standing back about 20 feet from the scaffold will see MacWherrell from the waist up, will see the noose adjusted and the man disappear. Should there be any hitch and the rope not work right only one or two spectators, who may squeeze about a narrow doorway at the foot of the scaffold, will be able to see what happens and that only darkly.

MacWherrell from the prison window yesterday saw the wagon load of lumber drive into the jail yard and surmised at once what it was for. The sulky, hard look came on his face at once.

This morning MacWherrell complained about the sound of the hammering and asked that the heavy wooden doors at the end of the corridor be closed to keep out the sound. His manner gives no appearance of failing nerves and he eats and sleeps well.

Last Saturday a photographer took four photos of the prisoner, two in the corridor and two in the yard. MacWherrell has been anxious to get photos of himself to send to half a dozen friends.

All efforts to get at MacWherrell's true name or history have failed. He sticks to a story that he has a sister married to a Colonel Lindsay in the English service, and that his mother resides in the Highlands of Scotland.

THE STEER WITH A COUGH

Is Said to Have Been Shipped From
Whitby in Mr. Dryden's Consignancy.

LONDON, May 30.—A committee of veterinary experts are carefully inspecting at the Board of Agriculture the lungs of the animal landed at the port of Liverpool ex the Dominion line steamer ship Toronto.

This beast was suspected by British veterinarians of being affected with pleuropneumonia. The fact that the Board of Agriculture called in outside experts, some of whom were nominated by the Canadian Government, is looked upon as a distinct gain for Canada. The disease with which the animal in question is supposed to be suffering is believed to be the same as before called by the British officials the North American type of pleuropneumonia and by the Canadian expert of broncho or transit pneumonia. The animal now being examined, it is believed, came from Whitby, Ont. In the case of the animal ex the steamship Gerona, which was detained by the officials at Deptford, the Board of Agriculture has declared that the lungs were not affected with pleuropneumonia.

FATHER AND SON KILLED.

Two Torontonians Killed on a Crossing
Near Brantford.

TORONTO, May 30.—Mr. Robert Smith of Edmund-street, Parkdale, for six years a traveler for the Home Knowledge Association, Bay-street, city, and his son Frank, aged about 20, were killed at a railroad crossing at Cainsville, near Brantford, yesterday morning about 10 o'clock.

Mr. Smith and his son left the city on Monday morning, this being the son's first trip, preparatory to becoming a regular traveler. On reaching Brantford yesterday they hired a horse and buggy and drove to Cainsville. Their business completed they were returning to Brantford, and when crossing the track G.T.R. express No. 61 struck the buggy and killed the father instantly. The son was picked up and conveyed to Brantford Hospital, where he shortly after died.

FATAL ACCIDENT AT MANVERS.

Two Freight Trains Derailed—A Newmarket Man Killed.

MANVERS, Ont., May 30.—About 4.30 Monday afternoon the Canadian Pacific Railway train going west broke an axle at Manvers Station, by which two freight trains were thrown off the track, delaying traffic for four hours, and by which a man by the name of Williams lost his life. Williams and another man had been stealing a ride on the buffers, and when the accident occurred the unknown man jumped, escaped injury and fled, but Williams was frightfully mangled, his head and legs being severed from the body. By papers found on the dead man it was ascertained that he had been employed as a baker at Newmarket and was endeavoring to reach Havelock.

Killed by a Trolley.

TORONTO, May 30.—Samuel J. Hill, farmer, 1634 Queen-street east, was killed by a trolley car in Queen-street east last evening. It is supposed that Hill was the driver of this wagon, and that by some accident he fell from his wagon, and being stunned by his fall was in an unconscious condition when struck by the car.

Limit of Italian Taxability.

ROME, May 30.—In the debate in the Chamber of Deputies yesterday on Finance Minister Sonnino's proposals, Signor Carmine gave statistics showing that the limits of Italy's taxability had been passed, the proportion of taxes to income being 21 per cent., whereas in Belgium the proportion was 6 per cent., in England 8 and in France 11 per cent.

great destruction of property in British Columbia, along the Fraser River and its numerous tributaries, by the flood, which covers many thousands of acres of rich land, destroying homes, costly dykes and bridges. Loss of life is reported. Hundreds of people have gone to the highlands for safety or are harbored on rafts. The flooded region embraces 50 miles along the banks of the Fraser from New Westminster. All crops are in ruins, and it is reported that the great Canadian Pacific Railroad bridge at Revelstoke and another at Mission City are gone.

2000 DROWNED IN THEIR BEDS.

Appalling Flood in China—The Water Was
27 Feet.

NEW YORK, May 30.—A Shanghai correspondent writes under date of May 5: At Yangtsekiang at Hanyang, the populous city opposite Hankow on April 21, a sudden freshet swept from the Han River. The first rush presented almost the appearance of a wall of water.

The flood, strewn with wreckage of all kinds, rose six feet an hour. Seven hundred large junks and boats were dashed to pieces.

The loss of life is appalling, the estimate being that nearly 2000 men, women and children, the most of whom were sleeping in their beds, were drowned.

Official reports record the recovery of 1500 bodies between Younglo and Hankow, while many others are known to have been washed ashore and buried. Three hundred bodies were thrown up on the bank at one point. At several places where the river was narrow the water rose 27 feet in as many hours.

Hunger Will Settle the Coal Strike.

CUMBERLAND, Md., May 30.—Several of the strike leaders yesterday admitted that the miners were weakening, and that the majority of them would probably go to work this week at the old rates. The miners' families are almost starving. There are 5,000,000 people dependent on the mines.

Gold Reserve Seventy-Eight Millions.

WASHINGTON, May 30.—Gold engagements yesterday for export amounted to only \$600,000. This reduces the so-called treasury gold reserves to \$78,300,000. The net treasury balance, which includes the gold reserve, has fallen to \$118,656,310.

The Superiority

Of Hood's Sarsaparilla is due to the tremendous amount of brain work and constant care used in its preparation. Try one bottle and you will be convinced of its superiority. It purifies the blood which, the source of health, cures dyspepsia, overcomes sick headaches and biliousness. It is just the medicine for you.

A Boon to Horsemen.

One bottle of English Spavin Liniment completely removed a curb from my horse. I take pleasure in recommending the remedy, as it acts with mysterious promptness in the removal from horses of hard, calloused lumps, blood spavin, splints, curbs, sweeny, stifles and sprains.

Annual District Meeting.

The annual meeting of the Napanee District of the Methodist church, was held in the E. M. Church, Napanee, on Tuesday and Wednesday, May 22nd and 23rd. Rev. S. J. Shorey, the District chairman presided. Rev. W. B. Tucker was elected secretary, and Rev. R. Taylor assistant secretary. The ministers of the district, fourteen in number, were all present, and they, with a layman from each circuit, make up the district meeting. The reports from the circuit showed that the membership has increased during the year by nearly two hundred and that the finances were in a satisfactory condition. General harmony and prosperity prevail in the work. The Lay representatives to the annual conference which meets at Peterboro next week were elected as follows: W. F. Hall; A. L. Morden, Q. C.; H. V. Fralick; U. Wilson, M. P.; D. S. Vandewater; Geo. Phippen; J. B. Hudgins; J. B. Aylsworth; John Hough; J. M. Davey; P. A. Mabee; Jas. Lewis; D. W. Lucas. Rev. W. Limburi was appointed a member of the stationing committee and A. L. Morden to the Missionary committee. In view of the possibility of the change of boundaries of the conference at the next general conference, the district passed a strong resolution in favor of maintaining relations with the conference west, rather than entering into a conference east. A very complimentary resolution expressing appreciation of the services of Rev. S. J. Shorey, as chairman of the district, was enthusiastically passed, to which Mr. Shorey feelingly replied. The meeting closed with the best of good fellowship and heartiest gratitude for the success of the year.

have expressed a desire to hear her. She has been engaged to give a recital in the Opera House on Thursday evening next, 7th June. She gave a recital in Picton on Tuesday evening last before a crowded house. She gave six numbers on the programme, and was encored each time. A Newburgh Merchant's Accident.

On the 24th, at Kingston, shortly after the physiog procession passed down Princess street, an accident occurred. Mr. Ryan, Newburgh, was sitting in a buggy in front of the Windsor hotel, waiting for Mr. Finkle, who owned the vehicle. An electric car and trailer came along and frightened the animal, and before Mr. Ryan was aware, it dashed across the track in front of the car. The horse got away from the traces and the buggy was struck by the car and upset. Mr. Ryan was thrown out and fell under the buggy. He was dragged some distance, but the only injuries he received were on one arm, which was badly bruised. The buggy was badly damaged, and the horse was stopped before going far.

Five Persons Drowned.

Picton, Ont., 30th.—A sad drowning accident occurred yesterday afternoon at Smith's bay, about eight miles from Picton. Living near Smith's bay and in the same house are two brothers named Lindsay. David Lindsay is married and has three children, the brother is not married. David Lindsay and his wife came to Picton yesterday and Alexander Lindsay took the three children, Alfred, Charles and Anna Louise, aged respectively 8, 12 and 13, to the bay for an afternoon's fishing. Towards evening the boat was found floating towards shore capsized. Search was made and the four bodies were found all together in about seven feet of water. Later on in the evening and some time after the four bodies had been recovered, Mr. William Ingram, a farmer living on the shore of the bay, was making enquiries about his wife who had taken a fishing pole during the afternoon and gone to the bay for a fish and had not returned. Search was again commenced at the spot where the other bodies were recovered and Mrs. Ingram's body was found about 1 o'clock this morning. It is not known how Mrs. Ingram came to the boat, but it is supposed she was fishing from the bank and when the Lindsays came along with the boat she joined them. The bodies were all found in one place along side of gill net seine and it is conjectured they were looking over the side of the boat at the fish in the seine which caused the boat to capsize. About twenty years ago there was a boat load of seven people drowned almost at the same place, five of them belonging to the Pierce family.

Results of Examinations.

The following average percentages were taken by the pupils of the Coll. Institute at the examinations given at the beginning of the month of May. Where the percentage obtained by two or more students differed by less than one, the name of the one who obtained the higher fraction is placed first. Again we would remind our readers that the ability, application and credit of pupils must not be decided by the results of such examinations alone. Many important modifying circumstances must be taken into account before a just decision can be reached. Please force this matter into your judgment.

Mission of Ernestown.

On Sunday last two adults and one child were admitted into the ark of Christ's holy church in the Sacrament of Baptism at St. Alban's church, Odessa. There was also a good attendance at the sacrament of the Altar.

Confirmation classes are about to be organized throughout the mission and all those who are desirous of receiving holy confirmation are requested to give in their names as soon as possible to the priest in charge of the mission, who will be glad to confer with any who would like to be instructed further in the nature and purpose of this holy rite before deciding in the matter. The classes will be open to all whether they propose to be confirmed or not. It is expected that at least thirty candidates will be presented to the Archbishop at his next visitation, most of whom will be adults.

Tyendinaga.

Saturday, the 26th of May, was a lovely spring day and from an early hour people began to wend their way to the parish church where the Archbishop of Ontario was announced to give the rite of confirmation to a class prepared by the missionary. At 11 a.m. the processional hymn 167, was heard in the vestry, when the Archbishop and clergy walked round to the west door and entered the church, the immense congregation standing. The hymn ended, the missionary presented 82 candidates to receive the apostolic rite of confirmation. After the laying on of hands and conclusion of the confirmation service the Archbishop addressed the newly confirmed in a most fatherly and impressive manner, explaining the nature of the vow they had just taken and warning all against the sin of apostasy. He referred briefly in conclusion to the troubles which existed in the parish and sustained the missionary in his actions throughout.

There was then a celebration of the holy eucharist, the historic communion service, "The gift of Her Majesty Ann, by the grace of God, of Great Britain, France and Ireland, of her plantations in North America, Queen to her Indian chapel of the Mohawk," being used. Most of the newly confirmed communicated, in all there were 126 communicants.

The clergy present were besides the Archbishop and his chaplain, the Rev. Rural Dean Carey, of Kingston, the Rev. Rural Dean Stanton, and Revs. T. Godden, H. B. Patton, R. Atkinson, F. T. Dibb, and the missionary. The church was crowded the doors, many could not gain admittance. The 26th of May, 1894, was a red letter day in the church on the Reserve.

The Arena.

The May number concludes the ninth volume of this valuable magazine which keeps fully abreast of the times, and is rapidly growing in popularity among not only literateurs and advanced thinkers, but general readers. This number contains a fine portrait of the poet, James Russell Lowell, the religion of whose poems is treated in the first article by Rev. M. J. Savage. Dr. Cooke has a very interesting article on "The Power of the Mind in the Care of Disease," "First Steps in the Land Question," by Louis F. Post; "Hereditry," by Helen H. Gardiner, "A Revolutionary Railway Company," by Albert Griffin; "The Philosophy of Mutualism," by Prof. Frank Parsons; "Looking Backward" (a poem) by Gottfried E. Hunt; "An Omnibus Baby," (a character sketch); "Emergency Measures for Maintaining Self-respecting Manhood," by B. O. Flower, the editor, are all good. Then there is a "Symposium" on the "Saloon Evil—How to deal with it," by Rev. Dr. Miver. Rev. Walter Vrooman, Helen Gongar, A. M. and the editor, Stinson Jarvis, in this number, conclude a remarkable series of articles which commenced in the December, 1893, number, on "The Ascent of Life," in which the author sets out to prove the existence of a soul in man "beyond a doubt." His proofs are psychological and are drawn from his own personal experiences in mesmerism and clairvoyance. Mr. Jarvis, now of New York, is a Torontonion, and the experiences he relates in detail as having occurred with his mesmeric subjects in Toronto, are indeed marvelous, if true, and there seems no reason to doubt them, as Mr Jarvis appears to be a man of high character and abilities, and those connected with him in

the developments, of the highest respectability. Assuming the facts given to be true, it remains to be seen whether they prove what Mr. Jarvis claims for them or not. One thing, however, is certain, the psychological field is as yet but little explored, and it is probably that "heaven and earth" of Shakespeare, in which are "more things than were ever dreamed of in our philosophy." In "The Arena," Books of the Day are ably revised by the editor and other distinguished writers. Published monthly by The Arena Publishing Co., Boston, Mass.; 144 pages in body of Magazine. Single numbers 50 cts., \$5.00 per annum.—A. P.
